Frequently Asked Questions

4) How is the Sound Pillow® Sleep System designed for sleep?
- Our content is evolutionary and “hypnotic” with extended cords, has virtually no beat/rhythm, or loud puctuations of sound/volume changes. The nature sounds and music include binaural tones, which are intended to relax the mind.
- Content includes extended fades-in and fades-out, so as not to be disruptive to the sleeper.
- In conjunction with the great sounding & comfortable Sound Pillow, the system is a naturally-relaxing experience.

5) What are the warranties?
- Sound Pillows: 30 days, against manufacturer's defects.
- Sleep System’s Player: 90 days, against manufacturer’s defects.

Trouble Shooting

1) Sound Pillow® sounds muffled:
- Turn pillow over...the speakers are facing your mattress.

2) No sound or only one speaker is playing:
- Be sure Sound Pillow’s jack is completely inserted into player.
- Be sure volume is turned up on Player & in-line volume control.

3) Player won’t turn on:
- First: Charge the battery.
- Second: Slide On/Off switch to Off then back to On.

4) Can’t download additional content:
- A shorter USB Mini Cable is required.
- Be sure additional content are MP3 files
- Check remaining memory capacity
